

EOC/TB Correlation Template

Old Edition: McMurry/Fay, Chemistry, 5e

New Edition: McMurry/Fay, Chemistry, 6e

Old Edition Chapter	Old Edition Section	Old Edition Item #	New Edition Chapter	New Edition Section	New Edition Item #	New/Pick-Up with Changes/ Pick-Up w/out Changes?
Enter the Chapter of the old problem (item) in this column.	Enter the section of the old problem (item) in this column. If no section was used, leave blank.	Enter the Problem (Item) Number from the old edition in this column. (Please title this "Problem X.XX" or "Exercise X.XX, depending on what was used in the previous Mastering edition)	What is the Chapter number that the problem (item) is moving to? Place that in this column.	What is the section number that the problem (item) is moving to? Place that in this column. If no sections will be displayed in Mastering, leave blank.	What is the new problem (Item) number in the new edition of the book? Place that here in this column. (Please title this "Problem X.XX" or "Exercise X.XX, depending on what naming conventions will be used in the new Mastering edition)	Is the problem brand new ("New")? Is the problem a "Direct Pick Up" (pick up w/out changes) from the old edition? Or is the problem a pick up with some changes to the problem needed ("Pick-Up with Changes")? We do not need to know what the changes inside the problem/solution are - just if there is a change that will need hand treatment by our EOC vendor. If a problem is being carried over to the new edition and the only change is the problem number, this is considered a Pick-Up without Changes.
